ABOUT JAZAL HOLDING

Jazal Holding, established as a parent to all subsidiaries and investments, develops and manages an extensive portfolio of companies focused on agriculture and food, industrial & commercial trading, healthcare, retail, real estate, technology and engineering. Our focus is on creating sustainable value through the growth of our portfolio.

All of Jazal's activities are focused on capitalizing on the potential of the MENA region's rapid socio-economic growth. We invest and partner with a wide range of world class companies in order to build capabilities and generate stable returns on investment. Wherever we operate, we involve as an active participant, adding value through managerial capabilities and local knowledge, as well as taking significant care to consider the community, people and the surrounding environment through a wide range of corporate and socially responsible initiatives. Jazal is in growth mode, with expanding business interests in technology, and engineering. Collectively, our companies are built to aim to create real value for the market, the investors and the community as a whole..
